National Survey -- Immigration Issues -- Feb. 15-18, 2018 -- Trump Base Voters

QDEAL1. As you may know, in order to pass significant legislation, 60 votes is required in the US Senate, meaning at least some Democrats would have to vote in favor of any plans that would increase our border security.

In order to get the votes needed to secure our borders, build the wall, and limit future illegal immigration, some people have proposed a deal that would have three parts...

Thinking about this specific proposal, would you support or oppose this deal? If you would like me to read the different parts of the proposal again, just say so.

QDEAL1. As you may know, in order to pass significant legislation, 60 votes is required in the US Senate, meaning at least some Democrats would have to vote in favor of any plans that would increase our border security.

In order to get the votes needed to secure our borders, build the wall, and limit future illegal immigration, some people have proposed a deal that would have three parts...

Thinking about this specific proposal, would you support or oppose this deal? If you would like me to read the different parts of the proposal again, just say so.

QDEAL1. As you may know, in order to pass significant legislation, 60 votes is required in the US Senate, meaning at least some Democrats would have to vote in favor of any plans that would increase our border security.

In order to get the votes needed to secure our borders, build the wall, and limit future illegal immigration, some people have proposed a deal that would have three parts...

Thinking about this specific proposal, would you support or oppose this deal? If you would like me to read the different parts of the proposal again, just say so.

QDEAL1. As you may know, in order to pass significant legislation, 60 votes is required in the US Senate, meaning at least some Democrats would have to vote in favor of any plans that would increase our border security.

In order to get the votes needed to secure our borders, build the wall, and limit future illegal immigration, some people have proposed a deal that would have three parts...

Thinking about this specific proposal, would you support or oppose this deal? If you would like me to read the different parts of the proposal again, just say so.
